

The "PSYCHIATRIC BRAIN"

NeuroAnalysis Workshop

Bridging the gap between clinical psychiatric phenomenology and brain disturbances.

Sha'ar-Menashe Mental Health Center

Participants: Neuroscientists, Psychiatrists, Clinicians, Key opinion leaders from Israel and abroad

The workshop will be followed by monthly meetings of a study group that will work together to delineate brain related causes of mental disorders.

Content of the initial workshop and study group meetings will be available in video format on the internet to accommodate participants from abroad.
